Lecturer: Anna Wojewnik-Filipkowska Email: anna.filipkowska@ug.edu.pl					
Course description: The general aim of the lecture is to explain the phenomenon of public-private partnership in Poland, Europe, and also worldwide. The knowledge should be useful for both future public real estate managers searching for partners and private investors looking for opportunities, project developers, financial analysts, economists. Studying public-private partnership helps to understand the potential for its application, improvement, but also notify its challenges and weaknesses. The lecture is based on the literature review and includes selected case studies and field research. The lecture covers: key success factors; emerging trends; risk characterization, allocation, and mitigation; policy design and social implications; current events, trends, and controversies.
